

Test of Maximal Greenitude

Current workday times are:
7am to 5pm, Monday through Friday

During the workday the temperature
should be between 68-78 degrees

During off-hours pushing the sun/
moon button should turn on the
HVAC to bring the temperature back
into the workday range for two
hours.

While we are testing this system, please report whether or
not pushing the button during off-hours turned on the
HVAC as expected to:

Jim Doyle (jgdoyle@uci.edu) and/or
Don Patterson (djp3@ics.uci.edu)
